CLINICAL EXPERIENCE

ARCH Psychological Services

Registered Psychologist (Provisional June 2015 – November 2016)

May 2015 – Present

I provide psychotherapy and psychological assessment to children, adolescents, adults and families as a member of ARCH Psychological Services. Under the supervision and consultation of George Lucki I have developed competence in clinical and forensic psychological services. My experience includes two years of work at the High Prairie Youth Assessment Centre providing psychological assessment and treatment for youth.

University Wellness Services – Mental Health Centre at the University of Alberta

Masters Practicum Placement

September 2013 – April 2014

I Provided individual and group psychotherapy for students at the University of Alberta as a member of University Wellness Services interdisciplinary team under the supervision of registered psychologists Dr. Rochelle Major and Jason Murray. Over one hundred and twenty hours of direct client contact.

Department of Clinical Services – Faculty of Education

Masters Student – Assessment Training Practicum

September 2013 – April 2014

Completed intensive training program to develop level-c competence in the administration, interpretation, report writing, and debriefing of psychological assessment under the supervision of Dr. Troy Janzen and Dr. Damien Cormier. One hundred hours of client contact including intake, testing and debrief.

Department of Clinical Services – Faculty of Education

Masters Counseling Practicum

September 2012 – April 2013

Developed competence in delivering psychotherapy to adult clients with a variety of presenting concerns under the supervision of Dr. William Hanson and registered psychologist Diane Priebe. Ninety hours of client contact.

Counterpoint House – Alberta Health Services

Forensic Counselor I

October 2011 – June 2013

Provided group counseling and psycho-education for adolescent male sex offenders in a group home setting, in coordination with an interdisciplinary mental health team.

MacEwan University – Advanced Clinical Field Placement

Student Field Placement at Alberta Hospital Edmonton

January 2010 – April 2010

Under the supervision of Dr. Lori Harper I developed an understanding of in-patient mental health services at Alberta Hospital. I observed the delivery of psychotherapy and intake, and designed an online survey to provide feedback regarding the post-doctoral residency interview process.

RELATED EXPERIENCE

Catholic Family Ministries – St. Albert, Alberta

Board Member, Trustee, and Master of Ceremonies

2005 – Present

I currently serve as a board member and trustee for this charitable organization. As the master of ceremonies for two annual conferences put on by Catholic Family Ministries I have developed strong skills in public speaking.

RELATED COURSE WORK

- EDPY 532 – SYSTEMS OF COUNSELING
- EDPY 533/534 – Basic Skills, Issues and Attitudes in Counseling
- EDPY 536 – Ethical and Professional Issues in Psychological Practice
- EDPY 542 – Cross Cultural Counseling
- EDPY 538 – Theory and Practice of Group Counseling
- EDPY 540 – Counseling Psychology Advanced Field Placement
- EDPY 545 – Individual Psychological Assessment
- EDPY 903 – Directed Research Project: Pre-Therapy Intervention for New Clients

The course work completed during my master's studies at the University of Alberta in the department of Educational Psychology included both academic preparation and a high level of applied practice. During the course of this degree I received training and developed competence in delivering individual and group psychotherapy for an array of psychological issues to clients with diverse cultural backgrounds. I received excellent supervision during this training, both in class and in my practice with clients. I have also received graduate level training in professional ethics within the field of psychology, and level-c training in psychological assessment. My training in this program emphasized the integration of science and practice, and I have a strong

knowledge of therapeutic outcome research, the impact of common factors on therapy, and best practice methods for developing and maintaining strong therapeutic relationships with my clients.
